Currently, I'm studying New Media Design & Web Development at BCIT. Prior to that, I worked at an elevator company as a production worker, which has taught me the importance of teamwork and the attention to detail.

After I graduate, I plan to enter the tech industry, with a major focus on web development and UI design.

While studying at BCIT, I learned new and essential skills such as JavaScript and React, which aligns with my goals of making interesting web applications and creative UI designs that appeal to everyone.

Work Experience

Garaventa Lift, shipping & receiving production worker

June 2021-August 2022, June 2023 -December 2023, Surrey, BC
